EDUCATION

University of Michigan

Ann Arbor, MI

Email: schenkd@umich.edu

Bachelor of Science in Computer Science - GPA: 3.175

July 2020 - Present

Courses: Data Structures and Algorithms*, Discrete Mathematics, Foundations of Computer Science*, Statistics & Data Analysis, Physics (Mechanics), Calculus 1 & 2

RELEVANT EXPERIENCE

Simulation Players (simulationplayers.io)

Remote

• Lead Software Developer (Contract)

October 2021 - Present

- Working as the lead software developer, for the Instagram artist @Leollii, on his NFT collection.
- Created a website (*simulationplayers.io*) using **Next.js** and **Tailwind CSS**.
- Created an Ethereum Smart Contract on Ethereum Mainnet using Solana for the NFT collection.
- Created a Minting Dapp on the website utilizing the Opensea.io api and JavaScript to allow users to mint NFT's in the collection.
- Created a **randomized NFT generator** (**JavaScript**) to randomly generate 5,000 NFT images and metadata based on layers of artwork given to me by the artist @Leollii.

iD Tech (idtech.com)

Remote

• Online Instructor (Part-time)

June 2021 - August 2021

- Worked as an online instructor gaining leadership experience while teaching two programming courses per week to 5-7 students per class.
- o Introduced many topics in computer science and helped students complete 3-4 projects.
- Classest: coding applications and game design with C++ and machine learning/artificial intelligence with Python.

PROJECTS

Piazza Post Classifier

• An application created with C++ that learns to classify 1000+ piazza posts with certain labels using machine learning through Bayes' Rule and binary search trees.

Image Processing: Seam Carving Algorithm

• A C++ application that utilizes the seam carving algorithm to intelligently resize images to desired height and width.

Office Hours Queue Website

• A small web server for an office hours queue, this C++ application utilized linked lists.

SKILLS

• Languages: C/C++, Python, JavaScript, MATLAB, RStudio

• Frameworks: React.js, Next.js

• Platforms: Windows, Linux, Raspberry Pi, Arduino IDE

INVOLVEMENT

Michigan Neuroprosthetics (umneuroprosthetics.org)

September 2021 - Present

• Programming Arduino Pro Mini 328 to control a prosthetic arm through various methods/modes.
